In Re: Comporium Wireless, LLC Interim Report on E911 Compliance
CC Docket No. 94-102

Dear Ms. Dortch and Messrs. Muleta and Solomon:

Attached via electronic submission for filing on behalf of Comporium Wireless, LLC please find the "Interim Report of Comporium Wireless, LLC Regarding Status of Wireless Enhanced 911 (E911) Deployment and Implementation." In addition to this filing, we are submitting one electronic copy to E911compliancereports@fcc.gov, as directed in Public Notice DA 03-2113.

If you have any questions about this filing, please do not hesitate to contact me.

Very truly yours,

M. John Bowen, Jr.

MJBJR:rwm

cc: Mr. Stephen Morris
Mr. John S. Holladay

**Interim Report of Comporium Wireless, LLC
Regarding Status of Wireless Enhanced 911 (E911)
Deployment and Implementation**

CC Docket No. 94-102

August 1, 2003

Comporium Wireless, LLC ("Comporium") is a Tier III Carrier and is the assignee of a partitioned license received from Cingular Wireless LLC ("Cingular") pursuant to a First Amended and Restated Joint Operating Agreement dated as of September 28, 2000 ("Agreement") governing the Charlotte-Greensboro-Greenville-Raleigh MTA ("Market M006"). Pursuant to the Agreement, Comporium does not own or operate a switch. All of Comporium's wireless traffic destined for PSAPs must first go through one of Cingular's switches. Cingular and Comporium are working together on a network-based solution for the deployment and implementation of E911 in Market M006, including the partitioned areas. As a Cingular assignee, Comporium is covered by the Consent Order (FCC 03-129) released June 12, 2003 between Cingular and the Federal Communications Commission, including the modified deadlines for E911 deployment contained therein.

Comporium, therefore, does not believe that the reporting requirements for Tier III carriers contained in FCC 02-210, released July 26, 2002, and in DA 03-2114, released June 30, 2003, are applicable to Comporium. However, in a good faith effort to comply with the E911 reporting requirements and in an abundance of caution, Comporium is filing this interim report regarding the status of wireless E911 deployment and implementation by Comporium.

Comporium has received no Phase I or Phase II requests from PSAPs. Thus, Comporium has not begun ordering or installing necessary network equipment. Comporium does not anticipate encountering any problems in doing so.

At this time, it is not known when Phase II service will first be available in Comporium's area, in that Comporium has not received a valid PSAP request for such service. At this time, Comporium does not anticipate any problems in meeting the ultimate implementation date of December 31, 2005 for deployment of E911 service in Comporium's area if valid PSAP requests are received at least six months prior to that date.
